Directions (51 - 56): Read the following passage and answer the question that follow-
Tea is an evergreen shrub. The word 'evergreen' means that old leaves remain on the shrub, while new ones come out. There is no drying or falling of leaves as in the case of other trees and plants. In a wild state the plant grows to an enormous height ranging from twenty five to thirty feet. But under cultivation it is not allowed to grow higher than four or five feet. The growth upward is checked by pruning while this operation serves to increase the growth of leaves below. The leaves of plant are one to two inches in length. Their colour is green and shape is oval.

The tea plant grows best of all, in places where there is plenty of rain as well as sunshine. The cultivation was perhaps first made in china and hence, it is the real home of the plant. Now, however, it is abundantly grown in Japan, Sri Lanka, Assam and Darjeeling in India. Tea does not grow in cold countries. Hence, there are no tea plantations in Europe, though it is favorite beverage there
